Auto Body Repair Technology - College Degrees and Programs ...

New technology, particularly the way cars' construction is evolving, means that auto repair shops need to update their techniques and equipment. A specific area of concern is the increased use of aluminum in car design. Aluminum body panels were once a privilege reserved mainly for high-end performance cars; but that's expected to change, and more manufacturers, such as Ford, are rumored to be designing all-new aluminum-bodied vehicles [source: Wernle].
