Approach the consultation as a conversation. When you're confident about your services and proud of what you have to offer, it can be easy to fall into the trap of turning your consultation into a presentation — where you speak and the customer listens. This can be off-putting to customers, making them feel like you don't value them as ...

Consulting Approach. The safety performance level of an organization is a direct result of the relationships that are formed between people and the other components of their work systems—the hardware, the procedures, and the managed, physical and social environments. Our consulting approach for improving safety performance is to always begin with a situational assessment from the perspective of the human performer(s) relative to the other components, not the other way around.

Consultation | Systems Approach Website

A message from our Board. Dear Colleague. I hope this finds you well. We today launch a consultation on our proposals to adjust our regulatory approach in response to the COVID-19 pandemic. Regulated bodies, tenants and other people who use their services have faced unprecedented challenges since March as a result of the COVID-19 pandemic.
